This sanitary map illustrates the wastewater collection system for the agglomerated zone of Marpiré. The map features several key elements:

- Urbanization Zones (Zones urbanisables):** Indicated by yellow shaded areas, including zones labeled UE, IAUE, and IAUA.
- Wastewater Network:** Shown as a red line network, representing both existing and projected gravity sewerage.
- Regard (Manholes):** Marked with black dots along the network lines.
- Water Courses (Cours d'eau):** Represented by blue areas, including a large lake in the bottom left and several smaller ponds.
- Flow Direction:** Indicated by arrows along the network lines.
- Autonomous Sanitation (Assainissement autonome):** A specific area is labeled 'Assainissement autonome' within the IAUA zone.
- Wastewater Treatment Stations:** Two stations are identified as 'Station d'épuration type Lagunage naturel':
 - Top right: 800 équivalents habitants.
 - Bottom right: 550 équivalents habitants.
- Peupleraie:** A green hatched area labeled 'Peupleraie' is located near the treatment stations.
- Boisement en cours de travaux:** A pink hatched area in the top left indicates a wooded area under construction.
- Scale and Date:** The scale is 1/1500, and the plan is dated April 2018.
- Logos:** The map includes logos for the Commune de Marpiré, L'Atelier Dyt, and DM EAU.
